

Pravat Kiran Timsina

Full Stack Software Developer

(415) 987-5964 — pravatktimsina@gmail.com — San Francisco, CA

EDUCATION

California State University East Bay

Hayward, CA

Bachelor of Science in Computer Science

PROFESSIONAL SUMMARY

Full Stack Software Developer with 5+ years of experience building enterprise applications using Java, Spring Boot, Angular, REST APIs, AWS, Docker, and Kafka. Experienced in scalable backend development, cloud deployment, database solutions, CI/CD automation, and Agile software development.

TECHNICAL SKILLS

Languages: Java, Python, C, C++, JavaScript (ES6), SQL, PL/SQL, HTML5, CSS3

Frameworks: Spring Boot, Spring MVC, Spring Data JPA, Hibernate, Angular, AngularJS, Node.js, Express

Cloud & DevOps: AWS (EC2, S3, Lambda, RDS, EBS), Docker, Kubernetes, Jenkins CI/CD, PCF, GCP

Databases: Oracle, MySQL, MongoDB, Microsoft SQL Server

Messaging: Apache Kafka, JMS, ActiveMQ

Tools & Methodologies: Git, SVN, Maven, JUnit, Postman, Swagger, Agile/Scrum, Test-Driven Development

PROFESSIONAL EXPERIENCE

Zoox

San Francisco, CA

Testing Support Specialist

August 2024 – Present

- Support autonomous vehicle fleet operations by monitoring vehicle readiness, software status, and recovery workflows using internal operational tools.
- Collaborate with engineering teams to troubleshoot live vehicle system issues, collect field data, and document technical findings.
- Analyze operational metrics and prepare reports to improve fleet reliability, charging processes, and deployment efficiency.
- Assist testing teams with vehicle validation, software updates, and real-world autonomous driving evaluations.

Wells Fargo

Fremont, CA

Software Developer

August 2022 – March 2023

- Developed enterprise REST-based microservices using Java 8, Spring Boot, Spring MVC, and Hibernate for banking applications.
- Implemented Java Stream APIs and Lambda expressions to improve backend data processing and application performance.
- Built Docker containerized applications and automated Jenkins CI/CD pipelines using GitHub.
- Developed Angular-based user interfaces integrated with Spring Boot REST APIs.
- Implemented Apache Kafka producers and consumers for asynchronous event processing.
- Optimized Oracle PL/SQL queries and database transactions to improve application efficiency.

Conduent Inc.

Austin, TX

Full Stack Java Developer

January 2021 – August 2022

- Developed enterprise applications using Java, Spring Boot, Angular, Hibernate, and REST APIs.
- Designed responsive single-page applications using Angular components, routing, and data binding.
- Managed AWS cloud deployments using EC2, S3, and Jenkins CI/CD pipelines.
- Implemented authentication and authorization workflows using Spring Security.
- Developed automated batch processing solutions using Spring Batch.
- Improved application quality using JUnit, Postman, Swagger, and Test-Driven Development practices.
